Infolink

INFOLINK is a mental health resource database which contains information about services, groups and activities that are available to people throughout Derbyshire to promote good mental health. The information is collected from many different sources and aims to serve as a useful tool for staff, service users and carers.

INFOLINK was first published in 1992 and subsequent editions were produced annually until 2001. **INFOLINK** was republished in January 2007 and proved to be a great success with staff, service users and carers. This is the second edition of **INFOLINK** and the information included has been reviewed and updated for 2008. **INFOLINK** will be reviewed and re-issued on an annual basis with the next printed issue due in April 2009. Updates are held on the Trust Intranet and Internet on: www.derbyshirementalhealthservices.nhs.uk/

The directory is listed in alphabetical order and is easy to use. A full index can be found at the back of the directory along with an **INFOLINK** entry form which can be completed and returned to the CPA Service to guarantee inclusion in the next edition. Inclusion in **INFOLINK** does not imply recommendation or endorsement of any particular service. It is intended as a collection of available information to help staff plan care and offer choice to service users and carers which is at the heart of the **Care Programme Approach**.

INFOLINK Entry Form

Derbyshire Mental Health Resource Database

The Mental Health Resource Database contains information about services, groups, resources, and activities that are available to people in Derbyshire to promote their mental health. The information is available to advice centres, service providers, voluntary groups, service users and carers in the form of list and booklets. It may also be available electronically in the future. We are collecting information, and would be grateful for your help. Please fill in the questionnaire below for each activity etc. that you are the contact for. A separate form should be filled in for each activity/group/service etc.
