# Derbyshire LINK

## Local Involvement Networks

Have your say on Health and  
Social Care services in your community

## Derbyshire LINK is here for you.

Your Local Involvement Network or LINK is here to enable you to have your say on the Health and Social Care services you use. We can hold all Service Providers to account and by working together we will make a real difference to our local Health and Social Care services.

### What we can do for you?

- Listen to your issues or concerns.
- Identify examples of good practice and services.
- Raise issues with service providers and get a response.
- Suggest improvements to health and social care providers.
- Check that recommendations for change are carried out.
- Provide relevant training for LINK volunteers.
- Keep you updated on progress.

You are the people who lead our agenda.

By getting involved with Derbyshire LINK you ensure that local issues around Health and Social Care are heard.

### Get Involved...

You decide how much or little you would like to be involved. You could become a LINK member and join together with other people, groups, organisations or forums from your local community and right across Derbyshire. You don't even have to leave your house to get involved, you can phone us, contact us by post or email. We can send you surveys and up-to-date information regarding Derbyshire LINK.

### How you can get involved...

- Become a LINK Volunteer.
- Tell us your views about health and social care services.
- Help us develop surveys and literature to ensure issues that are important to you are targeted appropriately.
- Participate in surveys and community research.
- Represent your local community or group at LINK meetings.

**We want to hear about the issues and concerns you may have about your Health and Social Care Services, so get in touch.**
